#### 4. Other Relevant Information /Significant Contributions not mentioned earlier:

##### 7 (i) E-Granthalaya 4.0

The e-Granthalaya 4.0 Centre, New Delhi has provided the free of cost for the computerization of the Library and arrangement of OPAC services through e-Granthalaya Software. Accordingly, books are computerized for quick access in order to get the information about the books available in the Library.

Now, the Vidyapeetha Library is fully computerized under the e-Granthalaya 4.0 OPAC (Online Public Access Catalogue) facility is provided for public access. Bar-coding of books has been completed successfully.

##### 7 (ii) Online Public Access Catalogue (OPAC)

The library has provided online public access catalogue for immediate identification of availability of documents with all particulars such as Title, Author, Editor, Commentator, Translator, Publisher, Date of Publication, Price, Pagination etc.

##### **7 (a) Problem faced to Users**

In addition to provides the library facilities in ten campuses of Rashtriya Sanskrit Sansthan library users is not fully satisfied to library facilities such as internet facilities, library working hours, staff cooperation, book issuing counter, photocopy services. Open and closed access systems, reference book, book bank, text book, library building reading room etc. Services users are not satisfied because they want to day by day development and improvement library facilities.

##### **7 (b) Status of Automations**

Ten campuses of Rashtriya Sanskrit Sansthan libraries provide free of cost e-Granthalaya Software from National informatics Centre, New Delhi.

##### **7(c) Computerization of Library**

As part of Rashtriya Sanskrit Sansthan, New Delhi directive, the computerization and automation of Library is presently underway. This is a joint effort by the Rashtriya Sanskrit Sansthan and CDAC with implementation of e-Granthalaya software package.

#### 7(d) Library Automation Today

The automation of operations has more frequently been approached modularly than as a whole. The current state of library automation can, therefore, be approached in this modular fashion. The major areas of activity have been...

Sr.No.	Automaton	Sr. No.	Automaton
1	Acquisition	4	Circulation
2	Cataloguing	5	Administration
3	Serial Control	6	Book Digitization

Library automation today is extremely dynamic. Changes are especially rapid in the two areas in which there is competition among commercial firms, Circulation and on-line services. The emergency of several Bibliographic utilities also to be increasing development activity in those Organizations. Computerization is done through library software. Here we have a software e-Granthalaya a Digital Agenda for Library Automation and Networking developed by National Informatics Center, New Delhi. Using this software, we can perform all the above library works easily and efficiently.

#### 7(e) Networking of libraries

Networking of libraries means publishing our campus library to Internet. by networking all types of reading materials are available to those who want them. Inter library book loan is possible through networking. We can access the details of other libraries such number of books, periodicals, magazines etc. for achievements of networking. Computer service should be gradually introduced in the following areas of library operation such as Serials control, acquisition, cataloguing, bibliographical services and circulation. Internet facility should be provided to the members of library users to enable them to access the world wide information and it should be open access and free services to all users.
